

# UTMC

## Urban Transitions Mission Centre

**Shaping sustainable cities of the future, together**

Join our global platform and empower cities to achieve a sustainable and resilient urban future. Our community of urban innovators collaborates in order to accelerate urban transitions towards net-zero emissions.

# Our Platform

---

**Cities are critical hotspots for climate mitigation** and have ambitious visions for climate actions. Yet, gaps persist between local action plans and the pace of current transformations.

**The Urban Transitions Mission Centre (UTMC)** is a **global platform** that **promotes urban sustainability** and facilitates climate-neutral transitions. UTMC will assist cities in bridging the knowledge and capacity gaps by linking them with policy, implementation, and funding solutions through exchanges that transcend national and regional borders.

Building on the **European Mission for Climate-Neutral and Smart Cities**, the UTMC platform supports the activities of the **Urban Transitions Mission** launched at COP26 under the framework of **Mission Innovation**, and it enables a **wide international knowledge and practice network of cities** and urban stakeholders that will help drive transitions globally.

# Our three Impact Pathways

The **Urban Transitions Mission (UTM)** helps to **accelerate systemic transition pathways** to net-zero, resilient and human-centred cities. As a platform, **UTMC supports the Mission and cities** through **three impact pathways**:

## Knowledge & Funding

**Mainstream knowledge, funding and good practices to accelerate urban transitions:**

- Evidence-based solutions, funding opportunities, and good practices to serve cities accelerate their urban transitions
- Knowledge and good practices to accelerate the pace of urban transformations globally

## Advanced Tools & Competences

**Offer advanced tools and moderated learning across governance levels:**

- Moderated learning and capacity building to raise awareness for climate neutrality
- Exchange of competences on multi-governance level to enable cities in developing and implementing effective climate neutrality policies

## International Cooperation

**Establish a forum for international exchange and cooperation on climate-neutral urban transitions:**

- Forum for international exchange and cooperation on climate-neutral urban transitions
- Global and regional events, for sharing knowledge and experiences on urban climate actions.
